Quarter Master

Version 4.3

Quarter Master by the PERCS Index is designed to automate the processes involved with the ordering, issuance and control of uniforms and kit items within police and other uniformed agencies. This is achieved through the use of Windows™ technology, advanced screen layouts and sophisticated database design. The increased efficiencies of automating this traditionally manual process is directly translated into savings in manpower hours and more effective use of inventory

Inventory Control

Quarter Master makes it simple to maintain control of all of the items in your inventory. As items are issued or returned, the on-hand quantities and inventory values are immediately adjusted. Quarter Master instantly provides each officers kit allocation details as well as maintaining full history details of the usage of all pieces of equipment. Standard reports provide a complete analysis of your inventory for tracking,

Simple to Use

Quarter Master utilizes the latest in screen design concepts to minimize the learning curve of users familiar with standard Windows™ protocols. A fully featured on-line Help system is included to answer any questions a user may have. Ease of Use features of the system include:

- Multiple views of the inventory
- Multiple search methods for members
- Use of 'pick' lists to reduce data entry
- 'Quick Add' to allow for fast entry of existing

Quarter Master 4.3 Components

Basic Package includes:

- Quarter Master 4.3 software
- One year of Technical Support
- Equipment required not included:
 - PC with Windows™ 7 - 10
 - 32 MB RAM, 20 MB Hard Drive space available
